WHY DO WE STILL USE APLS

- **AE040000C (Command Code|Year|Sequential#|Civilian Code)**
- **Not all acquisition individuals are not properly coded in mDCPDS.**
- **Not all individuals who are Acquisition are even coded.**
- **Command point of contacts (POCs) can be key to identifying and validating acquisition positions in accordance with the definition.**
- **ACRB has a APL Number Place Holder in Section I**

WHERE DO WE WANT TO GO?

- **Get out of the APL Business**
- **Source of Acquisition Position Data MAPL and m DCPDS**
- **Assist the CPOCs and Commands to code all Acquisition positions correctly**
- **Be able to feed data from CAPPMS back to mDCPDS**
- **Topload of individual Certification and AAC Membership into mDCPDS (still testing)**
- **Topload of individual Certification and AAC Membership for PEO STRI during Navy test build (still testing)**

BACKUPS

Why and When: APL Disconnect

- **When: maybe Monthly**
- **Why: Individuals gets disconnected or flipped from their current position (APL#):**
 - 1) **UIC changes**
 - 2) **Grade changes when not in the same broadband**
 - 3) **Series change**
 - 4) **Any character from CPCN change**

Exceptions to the rule above:

- **If the UIC is not null, position will not disconnect**
- **If series change from 0334 to 2210, position will not disconnect**
- **If grade change from GS to demo, position will not disconnect**
